

Kevin Burke

General Manager—Auckland division

P: +64 3 341 5551

M: +64 21 895 607

E: kevin.burke@corbel.co.nz

Over 30 years' commercial construction experience

Kevin manages the Auckland division within Corbel. His broad experience and 'can do' approach guides our teams to adhere to safety, operational, commercial, programme, and quality requirements. Kevin has worked in many industry sectors and has earned the respect of his team, clients and consultants on each and every project in which he has been involved. Kevin's approach is driven by his desire to ensure our customers have a great experience when they select Corbel as their construction partner.

KEY STRENGTHS

- Experienced construction project manager with broad skill set
- Highly motivated, with excellent communication, information technology, and general management skills
- A building engineer with experience of complex design and build, as well as traditionally procured contracts, including high value commercial offices and technical facilities
- Facilitates the resolution of both design and construction issues, managing and leading the project team with a proactive, collaborative approach, ensuring the best outcome
